

Class Safety Procedures

Effective – 1 December 2020

General Safety

1. We are complying with our host golf courses park and recreation, cities, and county, & will follow their safety/sanitizing guidelines.
2. Coaches, staff, parents, and participants are not allowed to attend class if they are sick, show any signs of illness, or have been around a person tested positive with COVID-19.
3. **Any individual believed to have been exposed should contact their doctor, get tested, and self-quarantine at home following the SC County Public Health **QUARANTINE** Steps.**
4. **Any individual who tests positive for COVID-19 or is symptomatic and awaiting test results should follow the Santa Clara County Public Health **ISOLATION** steps.**
5. **See SC County Public Health [Home Isolation and Quarantine Guidelines](#).**
6. We will use one entrance and exit point at Rancho del Pueblo Golf Course separate from the public entrance point.
7. Per golf course and county rules, all participants, parents/guardians, coaches and staff are required to bring and wear a mask or face covering. Per county rules, anyone over 6 years old must wear a mask or face covering and remain 6ft apart in social settings.
8. Please be on time. Given safety protocols, we must be especially disciplined.

Check-In

1. The check-in line will have separate lines for each class and require people to stand 6ft apart (follow designated colored dots on ground).
2. Parents may not enter the gate or be anywhere on the RDP patio or close to their child's class. We encourage parents to wait in their car until the class is over.
3. Our staff will sign in and sign out participants during check-in to avoid touching pens. Parent/guardians must be present unless your child is qualified and marked as "self-check in"
4. Tables, signs, and class materials will be cleaned daily and every 2 hours on Saturdays.
5. Hand sanitizers will be available at the check-in table while supplies last. Participants are encouraged to apply sanitizer (unless allergic) at the check in table prior to joining their group.
6. After checking in, Instructor will direct participants to their group location and stand on the colored dot.

Warm-Up

1. Participants must stay in their separate groups (Part 1 and 2) from check in to check out.
2. Warm-ups will include activities, and exercises that practice physical distancing and no physical touching (i.e., high fives, handshakes, knuckle bumps, etc. will not be permitted).

Practice Area Classes

1. Class sizes will be reduced to 12 and under to ensure physical distancing.
2. Participants will not share tees, scorecards, pencils, ball markers, and golf balls. Coaches will display them and ask participants to keep the items and not return the items used.
3. At the practice area groups (i.e., PLAYer Part 1) will be divided into two, one group will go to the driving range and one to the putting green to reduce the number of participants at each venue. Participants will partner up in teams no larger than 2 to ensure physical distancing.
4. Participants will be spread out by 3 yards while playing the games and maintain 6ft in separation when not playing the games. Cones and colored dots will be available to stand on when forming a line.
5. Participants & coaches use air high-fives and waives instead of high fives or handshakes
6. Participants will use putter on putting green and club on range to move golf balls.
7. Coaches will clean clubs before and after each use with disinfecting wipes or cleaner while supplies last.
8. Participants will use the sanitizer (unless allergic) after handing over their club.
9. After sanitizing, participants will stand next to a cone 6ft apart to avoid groups forming.
10. Safety signs will be present at the practice facilities.

Golf Course Classes

1. Class materials such as divot repair tools and ball markers will not be handed out
2. Participants must remain 3 yards from each other during the round
3. Participants are not to touch rakes, ball washers, or flag sticks
4. No handshakes pre or post round. Replaced by a bow, thumbs up, or an air high-five

Wrap-Up

1. Wrap-up discussions will take place in their separate groups, 6 feet apart.
2. Books will not be distributed this season nor will review sheet. Review sheets can be downloaded on our Participant Private Page. Password=par20

Check out:

1. Lead Instructor checks out their small group by walking them back to dots they stood on during check in
2. Instructors will field questions at the question table (next to the check-out table) after everyone checks out. Everyone must stay 6 feet apart.

Home Isolation & Quarantine Guidelines

Isolation and Quarantine Steps for People Before and After COVID-19 Diagnostic Test Results

There are a number of reasons why you may need to be tested for COVID-19: (1) because you have symptoms of possible infection, (2) because you were in close contact with someone who was infectious with COVID-19, or (3) because you are in a job that recommends or requires testing. The directions below will help you to determine what you should do while you are waiting for your diagnostic test results, and what to do after your test results are available.

What to do while you're waiting for test results:

(1) If you have any COVID-19 symptoms*, follow the Isolation Steps while you are waiting for results.

**COVID-19 symptoms include:*

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Sore throat
- Muscle or body aches
- Fatigue
- Nausea, vomiting, or diarrhea
- Headache
- Loss of taste or smell

(2) If you have no symptoms but were in CLOSE CONTACT with a person who was infectious with COVID-19, follow the Quarantine Steps while you are waiting for your test results.

(3) If you do not have COVID-19 symptoms and are not a close contact, you just need to wait for your test results. You do not need to follow Isolation or Quarantine Steps.

CLOSE CONTACT of a COVID-19 positive person = someone who was within 6 feet of the infected person for at least 15 minutes at any time beginning 2 days before the infected person had symptoms or tested positive. Close contacts include people who had 15 minutes of continuous contact with the infected person, as well as people who had repeated short-duration interactions with the infected person. Being considered a close contact does not depend on whether the contact or the infected person was wearing a face covering during their interaction.

What to do after you get your test results:

If you test COVID-19 positive, follow the Isolation Steps.

If you test negative AND:

1. You were a close contact of a COVID-19 positive person
⇒ continue to **follow the Quarantine Steps**.
2. You have COVID-19 symptoms* but are not a Close Contact ⇒ **follow Isolation Steps** until 24 hours after resolution of fever and improvement of other symptoms (unless otherwise directed by the Public Health Department or a physician to stay home for longer)
3. You were not a close contact and have no COVID-19 symptoms ⇒ you can resume your regular activities.

Restrictions & Information that Apply to BOTH Home Isolation & Home Quarantine:

Separate yourself from others:

- Stay at home except to seek medical care.
- Do not use public transportation.
- Separate yourself from others in your home.
- Do not prepare or serve food to others.
- Limit contact with pets.
- Do not allow visitors.
- Do not go to work, school, or public areas.

If you cannot meet the requirements for Isolation or Quarantine, you can call the COVID-19 Support Team at 408-885-3980 to request assistance with housing, food, or other needs.

Prevent the spread:

- Wear a mask and cover your coughs and sneezes.
- Clean and disinfect all "high-touch" surfaces every day.
- Wash your hands often.
- Do not share household items.

Practice homecare:

- Rest and drink plenty of fluids.
- Seek medical care if you experience: difficulty breathing, inability to keep fluids down, dehydration, or confusion.
- Call ahead before seeking medical care, notify the provider you are under isolation, and wear a mask at all times.

Home Isolation Steps	Home Quarantine Steps
<p>If you have been diagnosed with COVID-19 or you are awaiting COVID-19 test results, you must follow the Home Isolation Steps to prevent the spread of disease.</p> <p><u>Stay home until you have recovered and are not infectious</u></p> <ul style="list-style-type: none"> • Most people with COVID-19 have mild illness and can recover at home. • Monitor your symptoms closely and seek medical care if symptoms worsen, especially if you are at a higher risk of serious illness¹. • If you have symptoms, you can be with others after: <ul style="list-style-type: none"> ○ At least 10 days since symptoms first appeared, AND ○ 24 hours with no fever (without use of fever-reducing medication) AND ○ Improvement in symptoms • If you have no symptoms, you can be with others after: <ul style="list-style-type: none"> ○ 10 days have passed since your first positive test was collected <p>Note: If you are severely immunocompromised or ill, your doctor may recommend a longer isolation period.</p> <p><u>Close Contacts</u></p> <ul style="list-style-type: none"> • If you have a test confirmation or doctor’s diagnosis of COVID-19, then everyone who you had close contact with from 48 hours before your symptoms began until you self-isolated should follow the Home Quarantine Steps. Please share this document with them. To request help in notifying your Close Contacts without revealing your identity to them, please call 408-970-2870. <p><u>What if you cannot separate yourself from others?</u></p> <ul style="list-style-type: none"> • Anyone who continues to be in close contact with you will need to extend their quarantine until 14 days from the day you finish isolating. 	<p>If you live in a household with or had close contact with someone diagnosed with COVID-19, you must follow these Home Quarantine Steps. It can take up to 14 days to become infected with COVID-19. You must stay home and monitor your own health during this time to prevent passing infection to anyone else.</p> <p><u>Stay home to see if you develop symptoms</u></p> <ul style="list-style-type: none"> • You must stay home, even if you test negative, and continue to quarantine for the full 14-day period. • If you are unable to avoid close contact with the person with COVID-19, you must stay in quarantine for 14 full days after the case’s isolation period. This could mean quarantine for 24 days. • If you do not have symptoms, get tested around 7 days after last exposure to a case. If you are tested before that, get tested again towards the end of your quarantine period. <p><u>What if you develop symptoms?</u></p> <ul style="list-style-type: none"> • If you develop any COVID-19 symptoms, and they are new symptoms that you do not usually have in daily life, then you may have COVID-19, and you must follow the Home Isolation Steps (to the left). • Get tested immediately. <ul style="list-style-type: none"> ○ If positive, continue to follow Home Isolation Steps ○ If negative and the test was earlier than 7 days after last exposure to case, get tested again towards the end of your quarantine period. ○ If negative and the test was done after 7 days from the last exposure to the case, no additional testing is needed, but you must remain in quarantine for a full 14 days. <p><u>Which groups should seek additional information on the period of their quarantine?</u></p> <ul style="list-style-type: none"> • Certain workers² should consult with their employer, who may contact the Public Health Department for additional guidance.
<p>¹If you are 60 years or older or have a condition such as heart, lung, or kidney disease, diabetes, high blood pressure, or a weakened immune system, you are at higher risk of getting more seriously ill.</p>	
<p>²Workers with special quarantine considerations: Consult your employer if you are considered a first responder or healthcare worker <u>and</u> compliance with the Public Health Department’s isolation and quarantine guidance would compromise the continuity of service of your operation or department.</p>
